## Parapet Concrete roof overhang First floor ceiling Dark-colored vertical wood cladding Dark-colored vertical wood cladding First floor Lightly textured off-white stucco Concrete entrance protection Ground floor ceiling The thickness of different floors can Dark-colored vertical wood cladding Garage door with vertical cladding in dark wood consult your builder or contractor for Concrete driveway Ground floor - Level 0 Crawl space The dimensions indicated may vary depending on the location, soil type, the type of foundation and slab used. Refer only to your builder's detailed drawing at the time of construction.

## Section A-A

Section B-B

Some jurisdictions require a local architect or engineer to review and adapt the design to comply with local building codes and regulations. We strongly recommend checking with your local building department to confirm the applicable requirements. The sketch phase, preliminary design, and permit drawings cannot be used or applied without confirmation by a structural engineer. We recommend consulting your builder to produce detailed sections at the correct scale for construction, and to the urban planning rules applicable in your municipality.
